Dear Parents/Guardians

## MATHLETICS

For the last seven years, Farm Cove Intermediate has been using Mathletics on a school wide basis. The positive feedback given from students and teachers over this period has contributed to the school deciding to continue with Mathletics and use it in our programmes this year.

Mathletics will be mainly used as a math homework tool, however, Mathletics may also be used to support your child's learning at school. Teachers have been trained, and will continue to be trained in using Mathletics. They will set specific tasks which will coincide with what students are learning in the classroom, to extend and revise at home.

Subscribing to Mathletics will entitle students to 24-hour web access both at home and in school, and in doing so will engage both teachers and parents in helping your child to improve their mathematical skills.

As you can appreciate, to purchase a licence for all our pupils would be a significant outlay and one which we can unfortunately not bear alone. As an indication, a normal one-year subscription to the site costs a parent \$99.00 per child. However, with all students within the school participating, we have been able to lower the overall cost to \$25.00 which will enable your child to use this supporting programme.

Please complete the slip below indicating your method of payment and return to your child's classroom teacher.

Payment options are via our School Online Shop ([www.farmcove.school.nz](http://www.farmcove.school.nz)) (see Mathletics under Learning Programmes and Examinations), by internet banking to our bank account (ASB Highland Park, A/c No. 12 3011 0162324 00), by cash or cheque, or EFTPOS (at the school office).

Yours faithfully

**Joanne Andrews**
