

FARM COVE INTERMEDIATE

1 May 2018

Dear Parents/Guardians

Term 2 Maths Enrichment Programme

Your child has been selected for a Mathematics Enrichment Programme planned to run for eight weeks during Term 2. The intention of the programme is to provide intensive instruction in a small group situation where the focus will be upon developing Place Value understanding, building student confidence in their maths ability and other key areas of maths learning.

During Block One (8.30-9.30am) every day your child will attend a one hour maths lesson with teachers David Blake in the MDT room, or Kathryn Ward in the Science room. It is essential that they are at school on time and ready to learn by 8.30am in order to make the most from the programme. At the conclusion of the programme in Week 10, your child will resume maths lessons with their area for the remainder of the year.

If you have any concerns or questions about your child's participation in this programme, please feel free to contact the appropriate teacher as indicated below.

Kind regards

David Blake
