

FARM COVE INTERMEDIATE

18 February 2021

Dear Parent/Guardian

Year 8 Extension Mathematics Selection Process

Your child's classroom teacher has recommended they participate in the Year 8 Extension Mathematics selection process for 2021. This means that they have already demonstrated advanced achievement in Mathematics, above expectation for their age group.

The selection process is likely to take up to two weeks, during which time your child will be asked to sit multiple assessments in general mathematical concepts and problem solving tasks. Places in the programme are limited and will be offered to those students who achieve consistently high results across these assessments.

Should you have any questions about this programme, or if you would prefer that your child was not included in the selection process, please contact me directly via email.

Kind regards

David Blake
Extension Mathematics Teacher
